<ul style="list-style-type: none"> • He was very accommodating and understanding since it was a summer online course and accelerated. • I really liked when videos were posted with step by step ways to solve the hard math problems. As this is an online course it is very difficult to grasp concepts, but with the videos I felt more confident in what I was doing. • He is caring and send message to check if we have some problems. He wants all his students to be successful in his class which I found really interesting. • Overall this was a great course and I really appreciated the understanding and flexibility of professor He. • I appreciate your material that you posted to help us learn outside of the book. • He was awesome!
